

UDB-BAL: Universal Database of Baltic Publications

Estonia, Latvia, and Lithuania, often referred to as the “Baltic countries”, have been members of the European Union and NATO since 2004. Keeping informed on the Baltic countries is now easier with East View’s Universal Database of Baltic Publications. In recent years the economies of the three countries have experienced rapid expansion.

Coverage

This database pulls together the most widely read Russian-language newspapers in Estonia and Lithuania, a leading newspaper in the Baltic region devoted to business and economic matters, and the only pan-Baltic English-language newspaper in the region. The database is comprehensive, timely and provides in-depth coverage on current affairs, economic development, banking and finance, culture, and science. Particular attention is devoted to ethnic issues.

Searching capabilities

- ◆ Fluency in Russian is not mandatory: search in English, transliteration.
- ◆ Search full-text or metadata. An electronic Cyrillic keyboard is available for input.
- ◆ Archive: Some titles go back as far as 1997

Informative

Ideal for academic and government libraries, corporations, trade associations, and financial service organizations:

- ◆ information professionals
- ◆ researchers following developments in specific fields, such as natural sciences and technical disciplines, where foreign language capabilities are often lacking
- ◆ faculty and students
- ◆ marketing consultants and researchers
- ◆ business advisors
